▶ ACRYLIC SEALANT

Forcon-D provide 4 variations of acrylic sealants: yellow cartridge, green cartridge, blue cartridge, and grey cartridge (with additional benefits). These can be painted over and be used instead of silicone or polyurethane. Suitable for sealing joints between concrete and door/window jamb, aluminium, wood, metal, UPVC. Giving you clean, convenience, quality work with lower cost.

FORCON-D (Yellow-Silver Cartridge): General Purpose Acrylic Sealant

Suitable for interior work, general purpose with no direct contact with rain and sunlight. Use for grouting small gaps and craze cracks.
455 g./cartridge, 25 cartridges/carton

FORCON-D (Green-Silver Cartridge): Flexible Acrylic Sealant

Suitable for exterior work that requires flexibility. Use for grouting small gaps (0.5mm.-5mm.). Resistant to wind and rain. High adhesion and more elastic than general acrylic sealants.
470 g./cartridge, 25 cartridges/carton

FORCON-D (Blue-Silver Cartridge): High Elastic Acrylic Sealant***

Suitable for exterior work that requires more elasticity. Highly elastic and low shrinkage. Can be used to fix old, problematic grout work and 10mm. gaps.
310 ml./cartridge, 25 cartridges/carton

FORCON-D plus+ (Gray-Silver Cartridge): High Elastic Acrylic Sealant***

The best of acrylic sealants made with an addition of a special ingredient. Suitable for exterior work. High elasticity, low shrinkage, excellent adhesion, and mold resistant. Can be used to fix old, problematic grout work and 12-15mm. gaps. Can be used with poly carbonate, aluminium composite, concrete, precast wall, UPVC doors and windows.
310 ml./cartridge, 24 cartridges/carton

▶ SILICONE SEALANT

FORCON-D silicon sealants are waterproof and suitable for use on glossy surfaces such as glass. The silicone sealants cannot be painted over. We provide two types of silicone sealants: acetic cure silicone sealant and neutral (non-acetic) cure silicone sealant.

ACETIC CURE SILICONE (ACRID ODOUR)

FORCON-D Silicone: dp Acetic Cure Silicone Sealant

Acid silicone sealant. General waterproof silicone for fixing water leakage. Easy to use. Quick dry. UV resistant. Suitable for aluminium and glass work inside and outside the building.
Colour: clear/white/black/aluminium/light brown
280 ml./cartridge, 24 cartridges/carton

NON ACETIC CURE SILICONE (ODOURLESS)

FORCON-D Silicone: Glass & Metal Sealant (Neutral Cure)

100% Silicone. Odourless. UV resistant. High quality silicone for glass and metal work. Nonreactive. Suitable for steel, stainless steel, aluminium, metal sheet, awning, poly-carbonate, aluminium composite, and concrete wall. Can be used for interior and exterior work.
Colour: clear/white/black/aluminium/light grey
300 ml./cartridge, 24 cartridges/carton

▶ WALL PUTTY

FORCON-D WALL Putty: Interior & Exterior

Ready-to-use special acrylic product. High elasticity and excellent adhesion. Easily finished and suitable for fixing nail marks, seams, cracks, and craze cracks. This will create a smooth surface for painting over. In the case of using it as a primer, mix it with water in the ratio of 1:3

Colour: White

- 0.5 kg/can, 24 cans/carton
- 1.5 kg/can, 12 cans/carton
- 5 kg/can, 4 cans/carton

FORCON-D Barrel Gun

Made from high quality aluminium. Strong, durable and easy to use. Suitable for sealants with foil packaging.
Packing size per box: 1 piece

FORCON-D MEK

Used to remove dirt, silicone, and stains from various materials such as glass, aluminium, UPVC, tile, concrete, plastic etc.
Packing size per gallon: 1 kg

▶ POLYURETHANE SEALANT

FORCON-D PU 951: One Component Polyurethane Sealant

High quality polyurethane sealant for building materials. Can be painted over. Can be used for cold room, precast concrete, and floor joint. Suitable for sealing 2-inch gap (with the ratio between width and depth of 1:3)
Recommendation: paint over to increase longevity
Colour: white/ grey/ black
600ml./piece, 20 pieces/carton
